

# Washington Integrated Services Enhancement (WISE) Grant for Children with Special Health Care Needs

## Common Enrollment System

*...a system designed in partnership with parents to answer a parent's questions.*

### **Q. Where can I find all the resources available to me in one place?**

**A.** The new internet site will be the “one source” catalog of all public programs that provide services to children with special needs and all community support groups and resources.

### **Q. How do I know which programs have services that will help my child?**

**A.** The new system allows parents to describe their child and their concerns in their own words. The system then responds with a list of programs that are likely to be the most help.

### **Q. Can I quickly find out if I am eligible?**

**A.** An eligibility wizard will collect a small amount of non-personally identifying data and respond with a list of programs that the child is “probably” eligible for and a second list of programs they are “probably” not eligible for.

### **Q. Why do I have to fill out the same information for every program?**

**A.** The common enrollment system will collect data only one time and then “package” it as needed for electronic delivery to multiple programs based on the parent's request.

### **First Set of Programs Targeted to Receive Enrollment Data**

- Child Care and Early Learning
- Children with Special Health Care Needs
- Division of Developmental Disabilities
- Early Childhood Education and Assistance Program
- Head Start
- Infant Toddler Early Intervention Program
- Medicaid
- Mental Health
- Office of Superintendent of Public Instruction
- Supplemental Security Income
- Women Infants and Children

### **Important Features**

- Voice only access
- Multi-lingual access
- HIPAA Privacy Compliance
- Data is owned and controlled by the parent – no other access

- Requires little or no change to receiving programs
